October	428	1,671	26
November	^R 420	1,611	26
December	^R 441	1,635	27
Annual Total	5,187	19,879	26

NOTE: (1) For oil, totals are based on the sum of crude oil and condensate for Federal OCS and for U.S. Total. (2) For gas, Federal OCS total production is based on the sum of gas well gas plus casinghead gas, including vented and flared. U.S. Total production is based on the sum of marketed production and vented and flared gas. Beginning in September 1998, the pressure base used in measuring Federal OCS gas production was changed from 15.025 to 14.73 psia to coincide with the pressure base at which U.S. gas production is measured. Federal OCS gas production totals for January 1998 through August 1998 were adjusted using a conversion factor of 1.02. (3) Monthly data counts are subject to revision for both Federal and Total U.S.
